April 2016

Recent Developments / FY2015 Financial Highlights

2015 Group results have been impacted by increased macroeconomic and political uncertainty in Greece (extended negotiations with the lenders on the financing of the Hellenic Republic, referendum, capital controls (which are still in place), parliamentary elections in September 2015)

- revenues reached € 1,533.1 ml (vs € 1,544.5 ml in 2014)
- operating profit (EBIT) amounted to € 28.8 ml that included however impairment charges of € 58.3 ml
- after tax and minorities the group reported losses of € 106.1 ml (vs losses of € 51.6 ml in 2014)
- ✓ Total debt decreased to € 1,492.2 ml vs € 1,550.7 as of 31/12/2014
- ✓ Corporate related Net Debt as of 31/12/2015 reached € 527.2 ml
 - increased vs € 414.3 ml as of 31/12/2014 mostly because of increased working capital requirements in construction

- ✓ Total construction backlog stands at ~ € 3.3 bn with another ~ € 253 ml of projects with contracts to be signed

- Towards the end of 2015 there have been some positive developments that allow for optimism going forward
 - restructuring of Moreas BOT Concession that provides for increased state financial contribution of up to € 330 ml during operation and compensations to the Concessionaire and the Construction JV that were paid in early 2016
 - normalisation of amounts overdue by the Hellenic Republic with regards to the other two Concessions under construction that the Group participates (Aegean Motorway and Olympia Odos) for which construction works have resumed
 - traffic volume in mature operating assets (i.e. Attiki Odos) picked up on an annual basis for the first time since 2009 (~2%)
